

TEHREEM REHMAN

WordPress Developer | Elementor Specialist | Web Design

Lahore, Pakistan | tehreemr987@gmail.com | +92 3367287071 | linkedin.com/in/tehreem-rehman

PROFILE

Detail-oriented web developer with hands-on experience designing and building responsive WordPress websites using Elementor, including a personal portfolio, a WooCommerce e-commerce store, and a news and magazine style platform. Brings a methodical, analytical approach carried over from a scientific research background, strong troubleshooting skills, and a growing foundation in digital marketing. Comfortable learning new tools quickly and delivering clean, functional, visually polished websites.

TECHNICAL SKILLS

- WordPress: site setup, theme customization, content structuring, plugin management
- Elementor Page Builder: responsive layouts, custom sections, CSS animations, widget customization
- WooCommerce: product catalog setup, variable products, checkout configuration
- Plugin integration and troubleshooting: Shoplento, UAE Elementor Addons, MetForm
- Responsive and mobile-first design principles
- Digital marketing fundamentals (in progress)
- [Add: HTML/CSS, SEO basics, Google Analytics, Canva, etc. if applicable]

WEB DEVELOPMENT PROJECTS

Personal Portfolio Website | Independent Project | 2026

- Designed and built a personal portfolio site in a custom dark gold theme with a bespoke TR monogram logo, using WordPress and Elementor.

Libaas-e-Farda — E-commerce Store | Independent Project | 2026

- Built a WooCommerce-based online clothing store featuring variable products, product galleries, and a streamlined checkout flow.

News and Magazine Website | Independent Project | 2026

- Developed a news and magazine style website modeled on established Pakistani media outlets, including custom post layouts and organized content sections.
